

SIMONS FOUNDATION

The Simons Foundation congratulates the 55 outstanding mathematicians and theoretical physicists who have been awarded Simons Fellowships in 2013. This program extends academic leaves from one term to a full year, enabling recipients to focus solely on research for the long periods often necessary for significant advances. The Foundation is proud to support the work of these distinguished scientists.

SIMONS FELLOWS IN MATHEMATICS

Jozsef Balogh
University of Illinois at
Urbana-Champaign

Dror Bar-Natan
University of Toronto

Alexander Braverman
Brown University

Martin Bridgeman
Boston College

Xiaodong Cao
Cornell University

Jeff Cheeger
New York University

Ivan Cherednik
The University of North
Carolina at Chapel Hill

J. Theodore Cox
Syracuse University

Rodica Curtu
The University of Iowa

Vin de Silva
Pomona College

Ron Donagi
University of Pennsylvania

Hao Fang
The University of Iowa

Mikhail Feldman
University of Wisconsin-
Madison

Yuval Flicker
The Ohio State University

Gregory Galloway
University of Miami

Stavros Garoufalidis
Georgia Institute of Technology

Tara Holm
Cornell University

Christian Houdré
Georgia Institute of Technology

Nicholas Katz
Princeton University

Ralph Kaufmann
Purdue University

Konstantin Khanin
University of Toronto

Leonid Korolov
University of Maryland

Michael Larsen
Indiana University

Zhiwu Lin
Georgia Institute of Technology

John Lott
University of California,
Berkeley

Elizabeth Meckes
Case Western Reserve
University

Mark Meckes
Case Western Reserve
University

Peter Miller
University of Michigan

Ram Murty
Queen's University at Kingston

Andrea Nahmod
University of Massachusetts
Amherst

Barry Simon
California Institute
of Technology

Hart Smith
University of Washington

Jason Starr
Stony Brook University

Catherine Sulem
University of Toronto

Peter Thomas
Case Western Reserve
University

Konstantina Trivisa
University of Maryland

Yen-Hsi Tsai
The University of
Texas at Austin

Gunther Uhlmann
University of Washington

Ravi Vakil
Stanford University

Michelle Wachs
University of Miami

SIMONS FELLOWS IN THEORETICAL PHYSICS

Roger Blandford
Stanford University

Eric Braaten
The Ohio State University

Mirjam Cvetič
University of Pennsylvania

Yuval Grossman
Cornell University

F.D.M. Haldane
Princeton University

Erika Birgit Kaufmann
Purdue University

Alexander Maloney
McGill University

M. Cristina Marchetti
Syracuse University

Roberto Merlin
University of Michigan

Kimball Milton
The University of Oklahoma

Aditi Mitra
New York University

Leonardo Rastelli
Stony Brook University

Witold Skiba
Yale University

Anatoly Spitkovsky
Princeton University

Nicholas Warner
University of Southern California
